The Official Registration Scheme

Police Scanning the ID Triangle

DNA

A unique Forensic "DNA" solution and the latest advanced ID technology to be introduced by Datatag. Each piece of plant or machinery will be protected with an invisible unique "DNA" code and criminals will have to be confident they have removed every molecule.

Self Adhesive Tag

This flexible self-adhesive transponder contains a unique code number which is permanently programmed into its integrated circuit and situated under / within one of the triangular ID plates. The number cannot be altered or deleted and is impervious to attack by electric shock & magnetic waves.

CESAR ID Triangle

These tamper-proof plates carry a unique plant identification number ensuring that your equipment can be easily identified and concealed within a machine. The ID plate also contains the CEA and Datatag worldwide registered name & trademarks. The ID plate is attached to both sides of the machine.

Datatag® Datadot®

A superior microdot identification system developed for ease of use. The Datadots® can be applied to any surface, thus making it virtually impossible for the criminals to locate and remove them all.

Glass Tag

This transponder is about the size of a grain of rice and is permanently concealed within each piece of equipment. It contains a unique code number which is permanently programmed into its integrated circuit which cannot be altered or deleted.

Unbelievably - £1 million of UK equipment is stolen every week and only 5% ever recovered\*
